GETTING WIRELESSLY CONNECTED. (iDrive 7)

4. Select “Phone calls and audio”. Choose the iPhone you wish to pair within the BMW iDrive screen.

5. On your iPhone, confirm the pairing code by selecting “Pair”. Continue by following the additional prompts.

6. On the following screen, select “Confirm note and connect to Apple CarPlay”.
SWITCHING BETWEEN Apple CarPlay™ AND BMW iDRIVE MODES.

Once you have activated Apple CarPlay™ within your BMW, follow these steps:

1. Navigate to the “Com” menu in iDrive. Then, under the “Mobile Devices” section scroll to select the device you would like to connect via CarPlay.

2. Select “Connection Mode” and choose between “BMW iDrive” mode or “Apple CarPlay”

3. If Apple CarPlay is selected a pop-up will appear, select “Confirm Note”.

   Please Note: if this is the first time pairing to Apple CarPlay, you will have to select “Use CarPlay” on your iPhone as well.
FREQUENTLY ASKED QUESTIONS.

1. What are the requirements to use Apple CarPlay™ in my BMW?
   Apple CarPlay requires iDrive 5.0 or newer and BMW Navigation system. In addition, you must have an iPhone® 5 or newer running on iOS 9.3 or higher. Your iPhone must also have an active data plan, along with Siri, WiFi and Bluetooth capabilities turned on.

2. Can I connect my iPhone to CarPlay directly from the Bluetooth menu via my iPhone?
   Yes, start by putting your iPhone into pairing mode by going to Settings > Bluetooth on your device. Then follow the steps 2 through 4 on the previous pages and wait for the pop up window to appear on your iPhone and iDrive. Complete by selecting “Use CarPlay” on you iPhone. Refer to the screenshots below.

3. Does my iPhone require a USB cable in order for it to connect via CarPlay?
   No. BMW enables the wireless and convenient use of your iPhone with CarPlay.

4. I've paired my iPhone as Apple CarPlay, why is my phone not connected via Bluetooth?
   After connecting to CarPlay, your iPhone’s “Bluetooth” settings will show the vehicle's ID as “Not Connected.” This is normal due to the wireless capabilities.

5. I'm still having connection issues, how can I fix it?
   In the event there is still connection issues, please make sure all boxes are checked in the menu located in; Communications > Mobile Devices > Settings

6. Is CarPlay limited to just one main screen functionality?
   The CarPlay interface can have pages just like your iPhone home menus. However, there are direct links from your BMW's iDrive screens that will take you to the CarPlay menus when needed. For example, the Multimedia menu in iDrive will have a direct link to CarPlay.

7. If I’m already connected via Bluetooth is there a way to easily connect to Apple CarPlay?
   If you would like to switch modes, first check to see if the vehicle is displayed in the CarPlay settings of your iPhone. If so, ensure it is toggled ‘on’as shown in image. Then follow the steps on Page 4 of this guide.

FREQUENTLY ASKED QUESTIONS.

1. What are the requirements to use Apple CarPlay™ in my BMW?
   Apple CarPlay requires iDrive 5.0 and BMW Navigation system. In addition, you must have an iPhone® 5 or newer running on iOS 9.3 or higher. Your iPhone must also have an active data plan, along with Siri, Wi-Fi and Bluetooth capabilities turned on.

2. Does my iPhone require a USB cable in order for it to connect via CarPlay?
   No. BMW enables the wireless and convenient use of your iPhone with CarPlay.

3. How do I connect my iPhone to CarPlay?
   You can wirelessly pair your iPhone to CarPlay by following the Get Started Guide on the previous pages.
   **Please note**: It is not possible to connect your iPhone to CarPlay using the USB connector.

4. Can I connect my iPhone to CarPlay directly from Bluetooth via my iPhone?
   Alternatively, you can pair your iPhone via the "Bluetooth" settings menu. Select your BMW's vehicle ID and allow for your iPhone to be connected. Wait for the pop up window to appear and select "Use CarPlay."
   **Please note**: This method will only work if your iPhone has not been previously paired to your BMW.

5. I've paired my iPhone as Apple CarPlay, why is my phone not connected via Bluetooth?
   After connecting to CarPlay, your iPhone's "Bluetooth" settings will show the vehicle's ID as "Not Connected." This is normal.

6. Is CarPlay limited to just one main screen?
   The CarPlay interface can have pages just like your iPhone home menus. However, there are direct links from your BMW's iDrive screens that will take you to the CarPlay menus when needed. For example, the Multimedia menu in iDrive will have a direct link to CarPlay.

7. Will I still be able to use my BMW Apps while using Apple CarPlay?
   BMW Apps and Apple CarPlay cannot be run in parallel.
   **Please note**: You cannot have your BMW's Wi-Fi Hotspot and Apple CarPlay running simultaneously via one device.

Apple CarPlay is a trademark of Apple Inc. iPhone is a registered trademark of Apple Inc. CarPlay is compatible with iPhone 5 and later, and iOS 9.3 and later. For best results, please use the most recent version of iOS. Further information on Apple CarPlay can be found at https://www.apple.com/ios/carplay/. Apple is responsible for all content and functionality which is displayed in the vehicle via Apple CarPlay. While using Apple CarPlay, selected vehicle data can be shared with the user’s iPhone to enhance the CarPlay experience. More information can be found at https://www.apple.com/privacy/privacy-policy/ and https://www.bmwusa.com/Standards/Contacts/PrivacyPolicy/. Apple CarPlay uses the data plan of the connected iPhone and is subject to the fees and restrictions of the user’s wireless plan. If the iPhone is not connected to a power source, Apple CarPlay is subject to the battery life of the iPhone. While using Apple CarPlay, connection to apps and streaming services may be limited by the connected iPhone's wireless network connection.
