APPEARANCE PROTECTION FOR THE ROAD AHEAD

**ALL**SURFACE

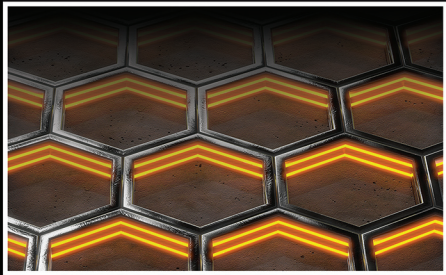

Environmental Protection

# Comprehensive Coverage

**COMPREHENSIVE PROTECTION**  
**ALLSURFACE** appearance protection sets the standard for automotive protective coatings. Its new exterior protection formula features **graphene and ceramic technology** to create a durable barrier between your automobile's paint and daily environmental hazards. **ALLSURFACE** provides a comprehensive exterior and interior protection package that far exceeds the limited coverage offered by standard warranties.

**NEW FORMULA**  
The new **ALLSURFACE** formula combines the strength of **graphene** with the smooth finish of ceramic coating that seals microscopic pores in the surface of the exterior clear coat and provides lasting exterior protection.

**WHAT IS GRAPHENE?**  
Graphene is a single layer of carbon atoms arranged in a two-dimensional honeycomb lattice. It is up to 100 times stronger than steel of equal thickness.

# GRAPHENE AND CERAMIC TECHNOLOGY

## Exterior

Your vehicle's exterior is exposed to daily hazards from the environment, severe weather, and road conditions. **ALLSURFACE** seals and protects paint and provides a layer of defense between your vehicle and these hazards.

**Backed by one of the most comprehensive warranties in the industry.**

## Fabric Protection

- Seals out water and oil-based stains.
- Extends the life of fabric and carpet.
- Contains inhibitors to impede fading.
- Free of fluoropolymers.

## Leather / Vinyl Protection

- Creates a barrier against stains.
- Protects against premature aging.
- Retains natural softness.
- Makes clean-up easy.

# ALLSURFACE

Environmental Protection

## Exterior Coverage

### Graphene & Ceramic Technology

- Weather-Induced Fading
- Loss of Gloss
- Hard-Water Etching
- Industrial Fallout
- Bird Waste
- Acid Rain
- Tree Sap
- Oxidation
- Insects (including love bugs)
- Road Salt
- De-icing Agents
- Sand Abrasion
- Accidental Paint Overspray
- Headlight Lens Dulling
- Brake Dust (aluminum alloy and chrome wheels)
- Chrome Water-Spotting

## Interior Coverage

- Food & Drink Stains
- Mold and Mildew Odors (as a result of food or drink)
